We understand that investing in new technology can be daunting, and sales messages alone may not be enough to convince you. That's why Tire Monitor System Ltd (TMS®) offers qualified businesses the opportunity to test our TPMS on their own vehicles, with no upfront costs or obligations.

Why you need a TPMS

- Prevent costly tire blowouts
- Reduce vehicle downtime
- Extend tire life and reduce fuel use
- Enhance operator and vehicle safety
- Meet compliance and reporting requirements

Why chose TMS®?

- Proven success in rugged, high-load, high-risk environments such as mining, construction, earth-moving and ports
- Specialists in TPMS for Industrial and OTR vehicles
- Independent from tire manufacturers
- Can be fitted to any tire make or size on any industrial vehicles
- Real time warning and alarm straight to your PC, smartphone or tablet

Ready to See the Difference for Yourself?

See how you can reduce costs, boost efficiency and improve performance:

- The trial is available to industrial and OTR fleets worldwide
- Limited slots available — reserve yours now
